### **REASONS FOR ALLOWANCE**

Claims 1-3, 6-8, 11-13, and 15-18 are allowed.

The following is an examiner's statement of reasons for allowance: The rejections set forth in the final office action mailed 10/09/2007 are withdrawn in view of the panel decision from pre-appeal brief review of 03/24/2008.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 03/05/2008 has been considered.

#### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zhang et al. (US 6,674,932 B1) discloses a functional molecular element comprising: a molecule with permittivity anisotropy and/or a dipole moment; a metal ion complex; and a conjugated molecule, wherein the conductivity of the conjugated molecule is changed by changing an orientation of the molecule with the permittivity anisotropy and/or the dipole moment by an action of an electric field (col. 9 II. 10-44). Zhang does not disclose or fairly suggest that the molecule with permittivity anisotropy and/or the dipole moment and the conjugated molecule form a complex with the metal ion.
